

Make a date for your health!
Endobiogeny Integrative Medicine Classes
Idaho Falls: Every second Friday
Pocatello: Every fourth Friday *except holidays*
6:30 P.M. - 8:30 P.M.

Presented by: Laramie Wheeler, D.O. • Jean Bokelmann, M.D. • Annette Davis, C.N.

Endobiogeny is the science behind wellness. Based on modern physiology and endocrinology, this innovative approach to wellness identifies the imbalances that are causing suffering. Endobiogeny focuses on the root causes of disease, not just symptoms.

Learn how to understand common ailments in a new light and explore natural treatment options. (Individualized treatments typically include herbs, supplements, essential oils, diet/lifestyle changes, and pharmaceuticals when necessary.)

**Everyone from the general public to health professionals
are invited to attend our informative, free classes.**
